9. On 11 August, the Flak Kaserne was occupied by only a guard detail wearing red-bordered black epaulets with artillery insignia. [redacted] \*\*\*

\* [redacted] Comment. The light occupation of the installation indicates that the bulk of the headquarters units and signal units of the Eighth Gds Army stationed there participated in the Finsterwalde-Wittenberg command post exercise. The participation of the Eighth Gds Army in this exercise was confirmed by troop trains [redacted]

\*\* [redacted] Comment. The information on the occupation of the Tannenberg Kaserne is conflicting. [redacted] previously reported an 80 percent occupation in mid-July, but the present report indicates that the transit camp in the eastern section of the barracks installation quartered no large number of recruits of discharges. On 10 and 11 August, [redacted] allegedly observed four east-bound trains with personnel.

\*\*\* [redacted] Comment. The components of the 13th AAA Div stationed at the Flak Kaserne and in a section of the Luetzendorf Kaserne apparently also participated in the Finsterwalde command post exercise. On 26 and on 27 July, one train carrying an AAA unit left Weimar. One of these trains went to Dobrilugk.
